

## Ursula Pumpkin Carving Instructions:

1. Tape your template to the pumpkin, then score the design into the skin by poking holes through the template with a nail or plastic poking tool (available in some pumpkin-carving kits).

2. Carve by starting at the center of your design and work outward to avoid putting pressure on areas already carved. As each shape loosens up, gently push it out of the pumpkin with a finger or a dull pencil point.

*Tip: If you cut something you didn't intend to, stick a toothpick through the flesh side of the piece and fit it back into place.*

3. Put your jack-o'-lantern in a place of honor (away from flammables), and remember to blow out all candles before you go to sleep.

**HAVE YOUR PARENTS HELP YOU CARVE.**
